P23 Science: taking science outside

Date Thursday 5 May 2022
Venue Spratton Hall School, Northampton, NN6 8HP
Cost £229 (non IAPS members – additional £100)

Through this course we can offer practical advice to help you make the most of the resources around your school and beyond the classroom to inspire teaching and learning within a safe environment. Using the outside world will create exciting and inspiring investigations that will motivate and engage your pupils to learn.

Audience Science HODs, teachers and TAs, KS1 & KS2

Objectives The course will focus on the development of working scientifically outside of the classroom environment. Teachers should be given a toolkit for developing working scientifically skills in their own schools. Teachers will understand the potential of using the outdoors to enhance learning and be confident to use the outdoors as a rich learning environment. Teachers will be able to link biological, chemical and physical processes to meaningful contexts outside the classroom.

Course Director Liz Williams, IAPS science subject adviser

We will do all we can to ensure our courses go ahead as planned. Occasionally, for reasons outside our control and particularly in the uncertain times we find ourselves in, courses may be cancelled, or courses that were due to take place in person may have to take place online. While a refund of the course fee will be given where courses are cancelled by us, we will not be able to take responsibility for any expenses incurred by you in advance, such as travel or accommodation costs which are no longer required due to the cancellation of a course or it being changed to a remote format. We do hope you will understand.
