

IT REVIEW AND SUPPORT

Cost: from £300

All support will be tailored according to the needs and context of the school but the following give an indication of sample packages. Final cost will depend on the level of support required and all packages can be adapted according to budget.

Initial Consultation and Review

£500

To assess the school's current EdTech needs and provide recommendations for improvements

Audit and Assessment

From £1000

In-depth audit and assessment of the school's EdTech including a review of existing systems, software, and hardware

Development Planning

From £1000

Direct support with the development of an EdTech strategy and implementation plan

Courses and Webinars

From £300

Actual cost will depend on the course topic and level of customization required.
