## Independent Schools SEND Conference in association with ISC

**5 NOVEMBER 2021  8.45AM – 4.10PM  PARK PLAZA VICTORIA LONDON**   CONFERENCE

This prestigious conference is aimed at SENCOS, Directors of Learning, Learning Support Teachers, Heads and SMT members who wish to understand or improve the SEND provision in their schools.  There will be a number of knowledgeable and experienced speakers delivering sessions at this conference looking at both practical approaches and legal issues in the classroom, along with the opportunity for interaction and discussion with colleagues from the SENCO network.

There will also be opportunities to network and benefit from the wide-range of organisations exhibiting.

< Return to listing

When clicking onto the 'book now' button, you will be required to log in:

**Step 1) If you are a previous conference attendee**, please log in using your email address and password.

**Step 2) If you do not have a record of your password**, please click onto 'forgotten password?' You will then be redirected to the following page:

Once you have reset your password, you will be able to continue with your conference booking.

**Step 3) If you are new to the IAPS website**, please click onto the 'register now' button

You will then be taken to the register page:

**If you are a member of an IAPS school**, please click 'yes'. You will be asked to complete your position title; date started and select your school from the drop down list:

Please do not hesitate to contact us if you have any queries.

When setting up your password, you will be directed to this page:

# First time password setup

Password policy and guidance:

Password leaks are dangerous since they can compromise our entire infrastructure. Not only should passwords be secure so they won't be easily hacked, but they should also remain secret. For this reason:

**Please choose a password which:**

- Contains 12 or more characters
- Uses 3 or more random words or a pass phrase with mix of lower case, upper case, numbers and special characters included.

**Your passwords should NOT:**

- Include your user name or personal information about yourself that someone who knows you might guess in less than 20 goes
- Be simple adjacent keyboard combinations e.g qwerty, 12345678.
- Be written down and kept with your device.
- Be the same for multiple accounts.
- Be shared. Each individual should register for their own access.
