The Association is the controller for the personal data we process, unless otherwise stated. During the course of the Association's activities, it collects, stores and processes personal data about staff, members, course and sports events participants, suppliers and other third parties.

The Association considers that it does not meet the requirements under UK GDPR for appointing a DPO. However, the Association has appointed a Data Officer, reporting to the Chief Executive, to oversee day to day administration in relation to UK GDPR and cyber security.

Any questions about the operation of this policy or any concerns that the policy has not been followed should be referred in the first instance to the Data Officer.

We may also receive personal data indirectly for example in the following scenarios:

- For trust beneficiaries, the application will be provided by the parents/guardian.
- Where references and emergency contact details are required.
- From members or other third parties advising of potential speakers/exhibitors for events.

Speculative personal data: if we receive an unsolicited CV at a time when we are not recruiting, we will delete the CV and inform the candidate of this.

Surveillance Systems: The Association has CCTV in operation at its Headquarters at Bishop's House for the purposes of safety and security. These cameras may capture footage of you whilst you are on the premises and your vehicle registration number if using the car park. The cameras are located both inside and outside the buildings. There are signs in place to inform you where the cameras are in use. We do not deliberately set out to capture any special category personal data. However, cameras may incidentally record information which falls within these categories. The data will be processed according to the IAPS Surveillance Systems Policy.
