

SEND REVIEW AND AUDIT

Cost: £1,000 -1500

A SEND review helps to ensure that all children, in all educational settings, achieve their very best, including the skills and qualifications that they need for successful transition, further education and employment. It also reviews how SEND is managed within the school.

The aim is for schools to identify strengths and areas for development in their SEND provision and management, and to implement a plan to move this forward. It is carried out in the spirit of collaboration and mutual support.

Benefits of commissioning a SEND review:

- The school benefits from advice from an experienced practitioner with knowledge and expertise in SEND.
- It is a rewarding and enriching experience that supports professional development, develops knowledge and inspires new ideas and ways of working.

The SEND review process normally takes 2-3 days. This includes the preparatory work before the visit, the school visit itself and the feedback.

School senior management will be committed to, and have the capacity to develop and implement, a SEND development plan.
