

Inspection Support, Compliance, SCR and SEF

Cost: From £500

IAPS Consultancy can provide support with all aspects of preparation for inspection, with consultants experienced in all aspects of compliance and the inspection process.

For example:

- A visit to your school to work with you and/or members of your team to prepare for inspection, both in terms of policy and procedure
- Support with your SEF, either in person or remotely
- A review of your SCR and additional guidance as required, usually remotely
- Training for staff on any aspect of the inspection process
- A review of policies

The final cost will be based on the level of support which is needed and how much additional guidance is required. A maximum fee can be agreed at the outset if preferred.

PHASE 2 (Optional additional service)

Part 4: SEND development plan

The consultant will present findings back to school management team. The consultant will then work with the SENCO / SMT to develop an action plan and areas for intervention, including:

- Baseline measures
- Input
- Delivery
- Evaluation
- Consolidation

Part 5: Implementation

An agreed amount of support from the consultant to support implementation of the Development Plan.

Examples of possible input:

Training to staff on provision maps

TA training on different interventions/SEND knowledge Training to staff on effective use of TAs

Phase 2 options (development plan, supervision and evaluation) cost £2,000, providing two half days split across the term to be used as agreed. This could include training and can be a hybrid of remote and on onsite working.
